

PRIME CONTACT
EVOLVE YOUR PRACTICE

Hey there Prime ConTact-eeer,

I am so excited to have you join us on what is the only digital learning community for ConTact C.A.R.E!

This community started out in the midst of lockdown 2020 and has been steadily growing since then. And one of the key elements of this community is that it is in a continual state of evolution.

What started off with a weekly class, has adapted, changed, and readapted again. Because when we are in a state of flow, we are healthy.

So that's why nothing here is fully set in stone. But there are certain foundations that have been laid that remain a constant. And it's around these cornerstones, that Prime ConTact can evolve to meet the needs of our community at any given point.

Live Treatment Screenings (LTS)

Alternative Tuesdays

ConTact C.A.R.E Spotlight (CCS)

Alternative Tuesdays

Ask Me Anything (AMA)

Last Friday of the month

Foundation Friday (FF)

Usually every Friday depending on what life in clinic has been like that week!

Any Anything Else...

As I said, this is continually evolving. So when new topics become available they will simply find a new slot to fill 😊

And just remember, if you do miss one of the classes, you can easily view it again later at a time that suits. This is all about taking the stress out of your learning experience.

So without further ado, lets get you into the page. Oh, and once your in, could you do a quick introduction? We'd love to learn something about who you are!

Look forward to seeing you there.

Evolving the world one bone at a time,

Jonathan
